

## CIVIL ENGINEERING CONSULTANTS

DESIGN | INSPECTION | SURVEY | PROJECT MANAGEMENT

### WHO WE ARE

Prism Engineering is a full-service Civil Engineering firm specializing in Land Development Design and Construction Services.

Prism Engineering is celebrating 10 years servicing municipal clients and the land development industry.

We are 100% employee owned, comprised of engineers, engineers-in-training (E.I.T's), and technologists.

We have offices in Regina & Edmonton.

### WHAT WE DO

Prism Engineering specializes in providing their clients with engineering support services, detailed engineering design, transportation services, construction services, project management and surveying.

We strive in our ability to provide value-added engineering services, to reduce construction costs and increase developable area and revenue.

We provide full-service engineering for Residential Subdivisions, Multi-Family Sites, Commercial & Industrial Subdivisions.
